Certificate III in Information Technology

TAFE — Victoria

2024

Skills

Industry Skills:

- Deep understanding of Australia's Privacy legislation

Hard Skills:

- UX/UI Design
- Programming Languages: Python, JavaScript, C, HTML, CSS
- Database Management
- Systems Administration
- Effective usage of SHA-2, Argon2i, salting, seeding, and peppering for password management

Projects and Accomplishments

- **JavaScript Discord Bot:** Developed a functional and interactive bot for Discord using JavaScript, enhancing user engagement through automated responses and commands.
- **Portfolio Website:** Created and maintain a personal portfolio website showcasing projects, skills, and accomplishments, demonstrating web development and design capabilities.
- **Raven's Nest:** Designed and implemented an encrypted local password manager, providing secure storage and management of passwords with a focus on encryption and data protection.

- **IVAN (Integrated Virtual Assistance Node):** Currently working on an advanced virtual assistant node project, similar to Alexa but with more complex and integrated functionality. This long-term project is expected to span several years.
